Build Basic Generative Adversarial Networks (GANs)
Build Better Generative Adversarial Networks (GANs)
Apply Generative Adversarial Networks (GANs)

Mar 10, 2024

Mohammad Fumagalli Tahboub

has successfully completed the online, non-credit Specialization

Generative Adversarial Networks (GANs)

Congratulations! You have completed all 3 courses of Generative Adversarial Networks - a DeepLearning.AI Specialization. As part of this Specialization, you have learned the classical machine learning skills and the state-of-the-art deep learning techniques needed to build GANs models. You are now equipped to design applications that perform image generation and image-to-image translation using GANs! These, and other generative applications, are going to be at the forefront of the coming transformation to an AI-powered future.

Sharon Zhou
Course Instructor

Aug 15, 2023

Mohammad Fumagalli Tahboub

AWS Fundamentals

has successfully completed the online, non-credit Specialization

AWS Fundamentals

In this Specialization, learners gained proficiency in essential concepts, services, and use cases within the Amazon Web Services (AWS) cloud ecosystem, including core AWS services and key AWS security concepts. The Specialization also covered fundamental strategies for planning and migrating existing workloads to AWS and how to build and deploy serverless applications with AWS. Learners are given opportunities to solidify their understanding by engaging in various hands-on labs and exercises throughout the Specialization.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.

Certificato Babbel

Con la presente certifichiamo che **Samir Fumagalli** ha completato con successo il corso d'inglese: **Avanzato (C1) - Corso 3**

Basato sul livello C1 del Quadro comune europeo di riferimento per la conoscenza delle lingue (QCER)

Communicative skills:

- ✓ identify important information using sentence-structure clues
- ✓ use negative questions to confirm another speaker's opinion
- ✓ use appropriate language to disagree diplomatically
- ✓ express and defend your opinion in an argument

Grammar:

- ✓ what-cleft sentences
- ✓ hedging phrases
- ✓ "that of" and "those of" demonstratives for comparison
- ✓ reporting verbs

Mar 9, 2022

Mohammad Fumagalli Tahboub

has successfully completed the online, non-credit Specialization

Programming with Google Go

This specialization is intended for individuals who wish to improve their programming skills and harness the reliability and efficiency of Google's programming language - Golang. Because it is an introductory program, there are no specific prerequisites other than an interest in computer software. Some previous coding experience required.

May 28, 2022

Mohammad Fumagalli Tahboub

has successfully completed the online, non-credit Professional Certificate

DeepLearning.AI TensorFlow Developer

Congratulations! You have completed all 4 courses of the DeepLearning.AI TensorFlow Developer Professional Certificate program. As part of this Professional Certificate program, you have learned: how to build and train neural networks using TensorFlow, how to improve network performance using convolutions as you train it to identify real-world images, how to teach machines to understand, analyze, and respond to human speech with natural language processing systems, and more! These, and other TensorFlow concepts, are going to be at the forefront of the coming transformation to an AI-powered future.

Duke UNIVERSITY

Dec 9, 2024

Mohammad Fumagalli Tahboub

has successfully completed the online, non-credit Specialization

Rust Programming

This comprehensive Rust Specialization from Coursera and Duke University, a top Data Science and AI program, provides software engineers, data scientists, and technical professionals with applied skills to leverage Rust's speed, safety, and versatility for robust systems programming. Over five courses spanning foundational syntax to advanced machine learning integrations, master Rust programming through hands-on lessons and 20+ coding projects, then tackle real-world challenges like building a database migration tool, optimizing an ML pipeline, or creating a Linux automation script. Upon completion, you'll have portfolio-ready Rust abilities to apply for roles like Platform Engineer, MLOps Engineer, Data Engineer, Embedded Engineer, or Backend Developer.
